ELSEVIER

Journal of Molecular Liquids 67 (1995) vi – vii

journal of MOLECULAR LIQUIDS

Contents

SPECIAL ISSUE:
IONIC and MOLECULAR INTERACTIONS

A Collection of Invited Papers in Honour of Professor Pierre Huyskens

Dedication ix

"A paradoxical effect: the decrease of the electrical conductivity upon addition of an ionophore"
M. Van Beylen, P. Jappens-Loosen and D. Huyskens (Heverlee, Belgium) 1

"K^+- bonds and their cation polarizabilities - a FTIR study"
B. Brzeziński, A. Jarczewski (Poznań, Poland) and G. Zundel (Munich, Germany) 15

"Linear and nonlinear dielectric studies of intermolecular interactions in nitroalkane-benzene liquid solutions. II. Molecular cluster model."
J. Małecki (Poznań, Poland) 23

"Correlation between the frequency shift of the stretching vibration of hydrogen bond complexes and the proton affinity"
T. Zeegers-Huyskens (Heverlee, Belgium) 33

"Hydrogen bonds in small water clusters: A theoretical point of view"
D. Peeters (Louvain, Belgium) 49

"Deuterium isotope effect on ^{13}C NMR spectra of ortho Mannich bases"
M. Rospenk, A. Koll and L. Sobczyk (Wrocław, Poland) 63

"Non-equilibrium statistical thermodynamics"
X. de Hemptinne (Leuven, Belgium) 71

"Application of the mobile order thermodynamics to predict the solubility of solid hydrocarbons in pure solvents and nonpolar binary solvent systems"
P. Ruelle and U.W. Kesselring (Lausanne, Switzerland) 81

"FTIR study on phase transitions in alkaline and alkaline earth metal salt solutions in acetonitrile"
J. Barthel and R. Deser (Regensburg, Germany) 95

"Dimerization and thermodynamic properties of nitric oxide"
F. Kohler (Bochum, Germany)
H.J.R. Guedes, J.C. Revés and M. Nunes da Ponte (Lisboa, Portugal) 105

"Proton position in hydrogen bonds formed by phenol derivatives and triethylamine"
M. Ilczyszyn and H. Ratajczak (Wrocław, Poland) 125

"Second-order nonlinear optics in isotropic liquids: hyper-Rayleigh scattering in solution"
K. Clays, E. Hendrickx, M. Triest and A. Persoons (Leuven, Belgium) 133

"The two non-ergodic insertion constants of the water molecule in H-bond chains at 25°C and their influence on the ternary diagrams water-alcohol-alkane"
K. Nelis, L. Van den Berge-Parmentier and F. Huyskens (Heverlee, Belgium) 157

"Nuclear magnetic relaxation as a selective probe of solute-solvent and solute-solute interactions in multi-component mixtures"
M. Holz (Karlsruhe, Germany) 175

"Ion-solvation and ion-pair equilibria in electrolyte solutions"
L. De Maeyer and G. Kessling (Göttingen, Germany) 193

"The infrared dielectric function of liquid triethylamine"
J.P. Hawranek and W. Wrzeszcz (Wrocław, Poland) 211

"NMR study of proton location in strongly hydrogen bonded complexes of pyridine as influenced by solvent polarity"
G.S. Denisov, V.A. Gindin, N.S. Golubev, S.S. Ligay,
D.N. Shchepkin and S.N. Smirnov (St. Petersburg, Russia) 217
